Training Animals

Tricks

For each point of Intelligence, an Animal can learn three Tricks from the following list. Teaching a Trick requires one week of training followed by a Handle Animal check vs. the listed DC.

- Air Walk(PH p197) – The Animal can be the subject of the spell *Air Walk* without panicking. DC 25.
- Attack(PH p74) – The Animal will attack the designated Humanoid, Monstrous Humanoid, Giant, or Animal. If the animal is to be trained to attack all types of creatures (including Undead), this counts as 2 Tricks. DC 20.
- Come(PH p74) – The Animal will come to its master, even into unusual areas. DC 15.
- Defend(PH p75) – The Animal will automatically come to its master’s defense, or will defend a person designated by its master. DC 20.
- Down(PH p75) – The Animal will stop attacking on command. Without this trick, the Animal attacks until its opponent is defeated or it is driven off. DC 15.
- Fetch(PH p75) – The Animal will attempt to retrieve the designated object. DC 15.
- Guard(PH p75) – The Animal will stay in the designated location and keep others from approaching it. DC 20.
- Heel(PH p75) – The Animal will follow its master, even into unusual areas. DC 15.
- Perform(PH p75) – The Animal can perform simple tricks, such as barking on command & rolling over. DC 15.
